

Global Arena

Munakata City / Fukuoka Pref, Japan

The Global Arena was designed by Global Sports & Tennis Design—Japan and constructed by Superstone International.

The long time relationship between Global Sports & Tennis Design—Japan and the Global Sports & Tennis Design Group has enabled design technology to span the globe and provide award winning designs for the enjoyment of the tennis players throughout Japan.

With land at a premium in Japan it was necessary to perform extensive earth-work to create adequate space for the Global Arena.

Awards for Design Excellence
2000 US Tennis Court and Track Builders Association

Sheldon Westervelt and/or Alex Levitsky have designed or have been a member of the design team.
