

# Snyder Tennis Center

University Of Virginia  
Charlottesville, Virginia

The University of Virginia had a Tennis Center that served the University Tennis Teams, the Physical Education Department and the student body recreational requirements.

The courts were originally constructed on unstable land and became unplayable and in a state of disrepair. A design build team was selected and 13 new courts were constructed using post tension concrete for the reconstruction of the courts.

The new tennis center has become a popular recreation area for students and the local tennis associations with the courts now in use from early morning until after midnight when the lights are turned off.

**Awards for Design Excellence**  
1997 Tennis Industry Magazine  
1997 United States Tennis Court & Track Builders Association  
1997 United States Tennis Association
