

Mason's Mill Park

Upper Moreland Township, Pennsylvania

BEFORE

Numerous crack repair procedures had been tried on these courts without success. The governing body decided to rehabilitate all courts necessitating careful evaluation of existing conditions and assets. The court rehabilitation methods were selected and the courts were all rehabilitated in one season.

Usage of the courts increased to a point where the Recreation Department had to assign a person to regulate play on the courts. The owner and players are very pleased to have new courts to play on.
