

# Phipps Ocean Park Tennis Center

## Town Of Palm Beach, Florida

The town of Palm Beach has a tennis facility at Seaview Park in the center of town with six clay courts and two hard surfaced courts which are very heavily used. The southern-beach community did not have courts and the Town elected to construct a smaller tennis facility in Phipps Ocean Park, immediately adjacent to the ocean and beach. Existing parking facilities made it a logical site choice.

Global was engaged to design a total tennis complex with six-subsurface irrigated tennis courts, a Pro Shop/Control Building, Entrance Plaza with a Player/Spectator Pavilion and maintenance facilities.

The development of the project is phased. Phase I included three tennis courts, with shade shelters, and a decorative gated entrance plaza. Phase II included the Pro Shop/Control Building and Pavilion. Phase III included the addition of court 6. Phase IV will include the final two courts.
