

The Waverly

Condominiums at South Beach
Miami Beach, Florida

Another successfully completed rehabilitation of the damaged rooftop court at the Waverly, a luxury condominium complex in the "chic" South Beach section of Miami Beach. Although only recently constructed using conventional techniques, the tennis surface had failed and could no longer be used for regular play. Global was engaged to survey the damaged court and to develop a surface specification that would solve the surface buckling and erosion problems as well as provide a deluxe, cushioned playing surface for the condominium owners. .
